

Ready to get your incentive? Follow these 3 simple steps.

Step #1: Apply for pre-approval

Pre-approval is required for all custom projects. To ensure that your project is eligible and to reserve funds, please submit a pre-approval application to include:

- » Information in Sections 1 - 3 on page 2,
- » Completed worksheet(s) that are applicable to your project (found on pages 4 and 5),
- » Itemized quote/proposal with model numbers from your contractor or vendor, and
- » Product specification sheets for the equipment to be installed.

Please note:

- » All projects are subject to a possible inspection before and/or after work is performed.
- » Custom projects must receive a reservation letter before work begins.
- » Expect your reservation letter in 2-4 weeks once all documentation is received.

Step #2: Complete your project

Ask your contractor to generate detailed itemized invoices with full model numbers.

- » If your project meets the pre-approval criteria, you will receive a letter indicating that funds have been reserved. Following the specifications listed in this application, install your equipment within 90 days. Applications that are not completed within 90 days from the date on the acceptance letter are subject to cancellation. Contact a program representative early if you need more time.

Step #3: Get your incentive

Once your project is complete, it's time to request your incentive. Within 30 days of project completion, you must submit:

- » Payee and W9 Information with signed Customer Certification (Sections 4 - 6 on page 3),
- » Completed or revised incentive application worksheet(s),
- » Detailed itemized invoice(s) for equipment and any applicable external labor costs, and
- » Product specification sheets of equipment for which an incentive is requested.

Once completed paperwork is submitted, your application will be reviewed and processed for payment. Incentive payments are made by check and are usually mailed within six to eight weeks.

Before the project: Fill Out Sections 1 - 3 during pre-approval.
After the project: Complete Sections 4 - 6 when project is complete.

Custom Lighting Worksheet

These incentives are available to customers for energy-saving measures that are not covered by the prescriptive portion of the program. Custom incentives are based on the first-year electrical energy (kWh) savings.

When applying for pre-approval, submit the following items:

- » Information in Sections 1 - 3 on page 2.
- » Completed Custom Worksheet (below).
- » Itemized quote/proposal for all related materials and any external labor.
- » Manufacturer's specification sheets for all equipment.

Custom Incentive Rate: \$0.06 per kWh

- » In lieu of filling out this table, submit calculations in an unlocked spreadsheet.
- » All new light fixtures and retrofit systems should be ENERGY STAR or DLC listed.

Total Custom Lighting Project Cost:	\$
Total Annual Custom Lighting Energy Savings (kWh) x \$0.06/kWh: (Cannot exceed 50% of the total custom project cost)	\$

Note: Customer acknowledges and agrees that Customer cannot apply for, nor receive, incentives for the same product, equipment or service from more than one utility unless there are both electric and gas savings.

Custom Non-Lighting Worksheet

These incentives are available to customers for energy-saving measures that are not covered by the prescriptive portion of the program. Custom incentives are based on the first-year electrical energy (kWh) savings.

When applying for pre-approval, submit the following items:

- » Information in Sections 1 - 3 on page 2.
- » Completed Custom Worksheet (below).
- » Itemized quote/proposal for all related materials and any external labor.
- » Manufacturer's specification sheets for all equipment.

Custom Incentive Rate: \$0.06 per kWh

1. Provide a detailed written description of the project.
2. Provide clear and logical step-by-step calculations detailing the estimated annual energy savings (kWh).
 - a. Submit calculations in an unlocked spreadsheet format (such as Excel). Do not send PDF copies of spreadsheets. Include page numbers, if needed to reference calculations or numbers on other pages.
 - b. Provide detailed and orderly calculations that can be followed without prior knowledge of the project.
 - c. Document any assumptions and inputs to calculations (e.g., hours of operation, load factor, power factor, motor efficiencies, etc.) and maintain consistency throughout calculations.
 - d. Identify key numbers (circled, bold, highlighted, etc.) and show correct units.

Estimated Custom Non-Lighting Project Savings

	Measure Description ^a	Annual Energy Savings (kWh)	Measure Cost (\$) ^{b,c,d}
1			\$
2			\$
3			\$
4			\$

^a Measure description refers to specific energy efficient project components (i.e. chiller replacement, industrial process improvement, etc.)

^b Measure cost is either the cost to remove/replace existing operational equipment, or it is the incremental cost to upgrade non-operational equipment from standard efficiency to high efficiency equipment.

^c Costs itemized by measure are preferred.

^d Include contracted labor costs, sales tax, disposal, permit fees, etc., related to the project.

Total Custom Non-Lighting Project Cost:	\$
Total Annual Custom Non-Lighting Energy Savings (kWh) x \$0.06/kWh: (Cannot exceed 50% of the total custom project cost)	\$

Note: Customer acknowledges and agrees that Customer cannot apply for, nor receive, incentives for the same product, equipment or service from more than one utility unless there are both electric and gas savings.

Important Information

1. Incomplete applications cannot be processed for payment.
2. Applications must be received within 60 days of purchase and/or installation of measures.
3. Notification of problems with incomplete applications will be sent via email or U.S. Mail.
4. Applicants will be given 60 calendar days to respond before application is deemed ineligible.
5. A rebate check will be mailed to you for qualified products. Please allow 4 to 6 weeks to receive your rebate check from the time your application is received by the Energy Innovations Collaborative Program.

Terms and Conditions

This offer is valid only for UP Energy Innovations Collaborative members' commercial electric customers for a limited time. Offer is good while funds are available and is on a first-come, first-served basis. Program begins May 1, 2023, and ends April 30, 2024. Completed documentation needs to be received within 60 days of purchase/installation date or May 31, 2024, whichever is earlier.

Products must be new and operational. Refurbished products are not eligible for rebates. Offer redeemable by mail, email or fax.

The UP Energy Innovations Collaborative reserves the right to withdraw or change this offer without notice. Rebates may not exceed purchase price. Rebates may not exceed \$3,000, per project, without prior utility approval. Ineligible rebates are subject to denial or repayment to program. The program is not responsible for applications lost, damaged or not received. Call 906.226.0573 to find out more about how you can save energy and money.
